

Curriculum Vitae

Personal information

First name(s) / Surname(s)

DALABAKIS, Paschalis

Address(es)

GR 57300, Chalastra, Greece

Telephone(s)

(+30) 2310 798790

Mobile: (+30) 6976867600

Fax(es)

(+30) 2310 796352

E-mail

dalabakis.LRI@nagref.gr, dalabakis@gmail.com

Nationality

Greek

Date of birth

03/04/1960

Gender

Male

Occupational field

Researcher in low-enthalpy geothermal energy applications in the agricultural sector

Work experience

Dates

October 2002 - present

Occupation or position held

Researcher responsible for the geothermal projects.

Name and address of employer

Land Reclamation Institute, National Agricultural Research Foundation, 57400 Sindos, Greece

Type of business or sector

Research Institution

Dates

April 1996 - September 2002

Occupation or position held

Geothermal expert

Main activities and responsibilities

Out of season production of fresh asparagus and drying of tomatoes using geothermal energy. Participation in research geothermal projects and implementation of prefeasibility, feasibility, environmental and application studies of geothermal projects.

Name and address of employer

Geothermica Hellas Ltd, Neo Erasmio, 67200 Xanthi, Greece

Type of business or sector

Production company specialized in geothermal direct uses

Dates

September 1992 - March 1996

Occupation or position held

Scientific collaborator

Main activities and responsibilities

Member of the coordination team of the European Project: « Santorini Volcano Laboratory, EU-DG XII ». Member of the scientific staff in the project «Volcanic Hazard – Civil Protection in the Santorini island»

Name and address of employer

Aristotle University of Thessaloniki, Thessaloniki, Greece

Type of business or sector

Research and Education Institution

Education and training

Dates

October 1984 - December 1987

Title of qualification awarded

Thése de Doctorat en Sciences (PhD) (volcanology and geothermal energy)

Principal subjects/occupational skills covered

Title: "Le volcanisme récent de l' île de Kos, Dodécanèse"

Name and type of organisation providing education and training

Université Paris XI – ORSAY, Laboratoire de Pétrographie et Volcanologie, France
Partially funded by the European Commission.

Dates

October 1983 - June 1984

Title of qualification awarded

Diplome d'Etudes Approfondies (D.E.A.) in Alternative Sources of Energy, Specialization in Geothermal Energy Research and Applications

Principal subjects/occupational skills covered	Continuing Education in subjects related to the geology and geophysics as a reference basis in geothermal energy research. Analysis of any technical aspect of applications based on the utilization of low or high enthalpy geothermal energy.						
Name and type of organisation providing education and training	Université Paris XI, Laboratoire de Pétrographie et Volcanologie, Paris-Orsay, France						
Dates	October 1978 - June 1983						
Title of qualification awarded	BSc in Geology						
Name and type of organisation providing education and training	School of Geology, National University of Athens, Greece.						
Personal skills and competences							
Mother tongue(s)	Greek						
Other language(s)							
Self-assessment							
European level (*)							
English	Understanding						
	Listening		Reading		Spoken interaction		Spoken production
French	B2		C1		B1		B2
	C2		C2		C2		C1
(*) Common European Framework of Reference for Languages							
Additional information	Member of 5 professional inter-scientific bodies, author or co-author of 6 journal and 16 conference publications.						
Selected scientific publications	<ul style="list-style-type: none"> • <i>Dalabakis P., 1986: Une de plus puissantes éruptions preatomagmatique dans la méditerranée Orientale. C.R. Acad. Sc. Paris, t. 303, serie II, No 6, p. 506-508.</i> • <i>Bardintzeff J.M, Dalabakis P., et al., 1989: Recent explosive volcanic episodes on the island of Kos - GR: associated hydrothermal paragenese and geothermal area of Volcania, Terra Nova, vol. 1, p. 75-78.</i> • <i>Trainea H., Dalabakis P., 1989: Mise en évidence d'une éruption phréatique historique sur l'île de Milos - GR. C. R. Acad. Sc. Paris, t. 308, serie II, p. 247-252.</i> • <i>Andritsos, N., P. Dalampakis and N. Kolios, 2003: Use of Geothermal Energy for Tomato Drying, GEO-HEAT CENTER, Quarterly Bulletin, Oregon Institute of Technology, Vol.24, No.1.</i> • <i>Gelegenis, J., Dalabakis, P., Ilias, A, 2006: Heating of wintering ponds by means of low enthalpy geothermal energy. The case of Porto Lagos, Geothermics, vol. 35, p.87-103.</i> • <i>S.R. Allen, G.E. Vougioukalakis, C. Schnyder, O. Bachmann, P. Dalabakis, 2009: Comments on: On magma fragmentation by conduit shear stress: Evidence from the 3 Kos Plateau Tuff, Aegean Volcanic Arc, by Palladino, Simei and Kyriakopoulos 4 (JVGR (2008) 178, 807–817), Journal of Volcanology and Geothermal Research, Volume 184, Issues 3-4, Pages 487-49.</i>

Selected research projects

- Karkoulias, V., Fytikas, M., Dalambakis, V., Mendrinos, M. (2002). *Atlas of Geothermal Resources in Europe – Contribution for Greece*, European Commission – Research Directorate General. Publication No EUR 17811 of the European Commission, Editors Suzanne Hurter & Ralph Haenel, pp 35-36, 67-68, 81, plates 25-28. Abstract: Geothermal thematic map (plate 25). Temperatures (plate 25): Eratino-Chrysopolis, Lesvos. Potential geothermal reservoirs: Mygdonia Basin (plate 26), Nea Kessani-Xanthi (plate 26), Milos (plate 27), Nigrita (plate 27), Sidirokastro (plate 27), Neo Erasmio-Xanthi (plate 28), other areas. Present status and future perspective of the use of geothermal energy.
- Science Research Development: “ENVIRONMENT”, Project : *Santorini Volcano Laboratory*, Sub-project : *Volcanic Risk, Civil Protection at Santorini*. (1993-96). Coordinator : M. Fytikas, Professor at the Aristotle University of Thessaloniki, European Union-DG XII
- Coordinator of the scientific team of the Land Reclamation Institute in the European Program: Operational Program of Fisheries 2000-2006. Title of the project: ‘Experimental intensive cultivation of the native space of shrimp *Melicertus kerathurus* (Forskal, 1775), using geothermal energy at Porto Lagos – Xanthi - Greece’.
